**Attachments:** Census of Production\_JS\_Notes\_Analysis.docx

Dear Senator McAleese and Nuala,

We would like to draw your attention to new information that has arisen in the course of our research, pertaining to the Census of Production (1926 onwards). I am sending this email on Jim's behalf as he will be away during this coming week.

Jim has done some initial research in the National Archives on the files from the Department of the Taoiseach, however it is my intention to visit the archives during this coming week to look at the Department of Industry and Commerce files (as well as those for other years) to ascertain what additional information may be available.

The PDF files that Jim has compiled from the NAI materials are too large for email and I have shared them via Dropbox, but please let me know if you have trouble accessing this and I would be happy to send them in via CD.

I am attaching an initial analysis prepared by Jim in relation to the Department of the Taoiseach files and we will be in touch with whatever additional information we uncover.

As always, if you have any questions, please do not hesitate to get in touch.

Regards,

Claire
